

brick building with Colonial Revival details. The tree-shaded grounds also include a 1951 gymnasium and a ca. 1960 classroom building. The Ruth Elementary School is recommended eligible for the National Register under Criterion A for education.

### **Washington Geer House**

This house is located on the north side of US 64 at SR 1539. Although now vacant and in disrepair, the house retains notable original features as well as elements added in the 1920s. The dwelling's traditional two story, single pile form is distinguished by the two tiered, engaged porch which appears to be original. The site also contains a frame corner crib that appears to be contemporary with the house and a twentieth-century frame shed. The Washington Geer House is recommended eligible for the National Register under Criterion C for architecture.

### **Gilboa United Methodist Church**

This church is located on the east side of SR 1532, 0.3 mile south of SR 1533. Constructed in 1886 and expanded in 1925, Gilboa United Methodist Church is a substantially intact, one story, frame church. A small cemetery stands to the north of the church, just beyond the abandoned railroad bed. The cemetery includes approximately 200 headstones including many that date from the 1890s into the early twentieth century. The Gilboa United Methodist Church is recommended eligible for the National Register under Criterion C for architecture and meets Criterion Consideration A for religious properties.

This property was evaluated in the survey but is no longer within the project's APE.

### **Yelton's Flour Mill**

This property is located on West Main Street in Spindale, just east of US 74 A. The Mill was built in 1915 and experienced several expansions up into the 1950's. The core of the complex is comprised of a four-story gable-roof structure which houses milling and ventilation equipment. It also includes wooden grain bins, grain silos, offices, shipping and storage rooms. Historic signage is also evident on the building's corrugated metal exterior sheathing. Three warehouse buildings with gable roofs, corrugated metal exterior sheathing and open brick pier foundations are also situated on the site. Yelton's Flour Mill is eligible for listing in the National Register under Criterion A for the development of late-nineteenth and early-twentieth century milling production methods and Criterion C for architecture.

### **3.4.2 Archaeological Resources**

An intensive archaeological survey was conducted within the study corridor for Alternative 3 during 2010.

The archaeological Area of Potential Effect is considered the proposed construction limits of the project. The intensive archaeological survey covered all of the
